

Notice: New Sales Tax System for Online Filing

On July 12, 2021, the City of Colorado Springs Sales Tax Office will be transitioning to a new online licensing and tax filing system, powered by MUNIRevs. This system will greatly improve our business's experience by allowing businesses to file and pay taxes at any time via an internet connected device, view their account history on demand, and delegate access to tax professionals, for filing on their behalf.

In preparation for the transition, the City will not be accepting or processing any new license applications or online payments between June 28, 2021 and July 12, 2021. During this time, our office will continue to accept paper returns and applications. We encourage all businesses to apply and/or file online in our new MUNIRevs system starting July 12, 2021.

Shortly before the system is live, you will receive a letter at your mailing address with onboarding instructions and login details. For questions or more information, please contact the Sales Tax Office at 719-385-5903 or salestax@coloradosprings.gov.
